

JANET OLSZEWSKI, DIRECTOR

Lewis Cass Building 320 South Walnut Street, Lansing, MI 48913 Phone: (517) 373-3500, TDD: (517) 373-3573

The Michigan Department of Community Health (MDCH) is the largest department within the executive branch, administering over \$10.1 billion annually. The functions of MDCH include development of state health policy and management of the state's publicly funded health service systems. Millions of Michigan residents will receive services this year funded in whole or in part through MDCH.

The department was created by Executive Order No. 1996-1, issued on January 31, 1996, by the governor, in order to provide a more holistic approach to health care in Michigan. The Executive Order consolidated the Department of Public Health, the Department of Mental Health, and the Medical Services Administration, the state's Medicaid agency. The Office of Drug Control Policy, the Crime Victim Services Commission, and the Office of Services to the Aging were added to the department by subsequent Executive Orders.

The state **Surgeon General**, created by Governor Granholm in 2003, provides advice to the Director of the Michigan Department of Community Health on issues critical to the health status of the citizens and families of the state of Michigan. The position also supports positive lifestyle changes and effective community and citizen health empowerments initiatives throughout the

The Office of Drug Control Policy's mission is to reduce and prevent drug use and crime through prevention, treatment/rehabilitation and incarceration. The Office of Drug Control Policy is responsible for the award and administration of grant projects with local criminal justice agencies, state and local governmental agencies, education providers, courts, community-based organizations, prosecutors, and private nonprofit agencies to reduce and prevent substance abuse, adult and juvenile crime and violence.

The **Medical Services Administration** is primarily responsible for the administration of the Michigan Medicaid program — a \$7 billion program that provides health care coverage for lowincome Michigan citizens. Medicaid provides health care coverage for approximately 1.4 million Michigan citizens.

The Bureau of Health Systems regulates health professionals in Michigan who are licensed, registered, or certified in a wide range of health care occupations. The Bureau of Health Systems deals primarily with the licensing of health care facilities and related issues throughout the state.

Mental Health and Substance Abuse Services promote and maintain an adequate and appropriate system of services for children and adults who have a serious emotional disturbance, a serious mental health condition, a developmental disability, a substance abuse problem, or a pathological gambling addiction. Community mental health services programs are available in all 83 counties, under the auspices of 48 single- or multi-county community mental health boards.

Under the **Mental Health Code**, the department shall:

· Engage in planning for the purpose of identifying, assessing, and enunciating the mental health needs of the state:

- Review and evaluate the relevance, quality, effectiveness, and efficiency of mental health services provided by state and county community mental health services programs;
- Establish minimum standards governing the operation of community mental health services programs;
- · Direct mental health services to individuals who have a serious mental illness, developmental disability, or serious emotional disturbance with priority to be given to individuals having the most severe forms of these disabling conditions who are in urgent or emergency situations;
- · Promote and maintain an adequate and appropriate system of community mental health services programs throughout the state;
- · Promote and maintain "Person-Centered Planning" approach to case planning and service delivery by all publicly funded mental health programs;
- · Develop and establish arrangements and procedures for the effective coordination and integration of all public mental health services, and for effective cooperation between public and nonpublic services, for the purpose of providing a unified system of statewide mental health care:
- · Review and evaluate the relevance, quality, effectiveness, and efficiency of mental health services being provided by the department and assure the review and evaluation of mental health services provided by community mental health services programs; and
- · Provide statewide forensic services.

The department operates the following **hospitals and centers**:

· A center for children with serious emotional disturbances:

HAWTHORN CENTER

Shobhana Joshi, M.D., Director 18471 Haggerty Road, Northville, MI 48167

Hawthorn Center is a psychiatric hospital for children who are emotionally disturbed. The center is accredited by the Joint Commission on Health Care Organizations (JCAHO) and is certified by the Health Care Financing Administration (HCFA). It is also a training center in child psychiatry and related disciplines in affiliation with Wayne State University and other local universities.

Hawthorn Center was completed early in the summer of 1956.

Adult psychiatric hospitals:

CARO CENTER

Rose Laskowski, R.N., Director 2000 Chambers Road, Caro, MI 48723

The Caro Center was originally established in 1913 as the Michigan Farm Colony for Epileptics under the authority of Act 173 of 1913 as a state hospital to serve persons with epilepsy. Subsequent name changes included the Michigan State Hospital for Epileptics, Caro State Hospital for Epileptics, Caro State Home and Training School, Caro Retardation Center, Caro Regional Center, Caro Regional Mental Health Center, and, lastly, to Caro Center in 1995. Today, the facility provides inpatient services for adults who have mental illness. The facility is accredited by JCAHO and is certified by HCFA.

KALAMAZOO PSYCHIATRIC HOSPITAL

James Coleman, Ed.D., Director 1312 Oakland Drive, Kalamazoo, MI 49008

The Kalamazoo State Hospital, the oldest state-operated hospital in Michigan, was opened on August 29, 1859. The hospital was established for the "humane, curative, scientific and economical treatment of insane persons," and is situated on 178 acres of land.

On January 1, 1978, the name of the hospital was changed to Kalamazoo Regional Psychiatric Hospital and subsequently changed to Kalamazoo Psychiatric Hospital in July 1995. The hospital is accredited by JCAHO and certified by HCFA.

The hospital's physical plant was conveyed to Western Michigan University by authority of Act 480 of 1996 and is currently leased from the university.

WALTER P. REUTHER PSYCHIATRIC HOSPITAL

NORMA JOSEF, M.D., Director 30901 Palmer Road, Westland, MI 48185

In December 1977, psychiatric services at Wayne County General Hospital became a state operation. It was renamed the Metropolitan Regional Psychiatric Hospital. On October 1, 1979, the state purchased one of the buildings at Wayne County General Hospital and renamed it the Walter P. Reuther Psychiatric Hospital. The Metropolitan Hospital was then closed and persons requiring continued treatment were transferred to Reuther. Reuther operates today as a hospital serving adults with mental illness.

The hospital is accredited by JCAHO and certified by HCFA.

• A center for persons with developmental disabilities:

MT. PLEASANT CENTER

KENNETH LONGTON, Director 1400 West Pickard, Mt. Pleasant, MI 48858

This center opened in 1934 as the Michigan Home and Training School. The name was changed to the Mt. Pleasant State Home and Training School with the establishment of the Department of Mental Health in 1945. In 1975 the center was renamed the Mt. Pleasant Center for Human Development with subsequent name changes to the Mt. Pleasant Regional Center for Developmental Disabilities in 1978 to the current Mt. Pleasant Center in 1995. The center serves persons with developmental disabilities providing a full range of treatment and rehabilitation services to persons from 79 counties of the state.

The center is certified under the ICF/MR program of HCFA.

· Forensic services:

CENTER FOR FORENSIC PSYCHIATRY

WILLIAM H. MEYER, J.D., Director Box 2060, Ann Arbor, MI 48106

The Center for Forensic Psychiatry was established as an agency of the Department of Mental Health under the authority of Act 175 of 1996, and, beginning August 1975, under Act 258 of 1974. The center is under the jurisdiction of the Bureau of Forensic Mental Health Services. The center is accredited by JCAHO.

The facility was established for the diagnosis, evaluation, and treatment of persons committed to the department by criminal courts; for the reporting of findings and recommendations to the department and courts as indicated; and for the conduct of research on the relationship between mental disability and criminal law.

Substance Abuse Services is the other major component of the Mental Health and Substance Abuse Services line. It is governed by the Public Health Code. Its duty is to promote the health and welfare of individuals through the reduction of substance abuse and to participate in efforts to address its social, personal, and economic consequences. To accomplish this mission, Substance Abuse Services administers state and federal funds, advocates for effective public policy, and develops appropriate resources.

The *Crime Victim Services Commission* is charged with overseeing a wide range of services and funding for victims of crimes. It administers the Crime Victim Compensation, Crime Victims Rights and Assessments, Federal Victim Assistance Grants, and Automated Victim Notification programs. Its goal is to promote services and supports that enhance the health, well being, dignity, and rights of victims of crime in Michigan.

The **Public Health Administration** is responsible for assessing community needs and for prolonging life and promoting health through the prevention and control of communicable and chronic disease. These responsibilities and objectives are administered by the following units:

The Bureau of Epidemiology is responsible for four major activities: surveillance and prevention of communicable diseases and the response to epidemics; promotion of immunization among children and adults; assessment of the health implications of exposures to environmental agents; and the analysis of health and disease patterns in the populations.

The **Division of Vital Records and Health Statistics** is responsible for collecting and analyzing information on vital events such as births, deaths, marriages, divorces, and related information such as paternity establishment, fetal deaths, induced abortions, persons diagnosed with cancer, children identified as having birth defects, and health services available within the state. It provides documentation and analyses of all vital events which are compiled through a registration system begun in 1867.

The Bureau of Laboratories provides services for the identification and monitoring of infectious disease agents such as HIV and other sexually transmitted diseases, tuberculosis, hepatitis, and Legionnaires disease. It has the responsibility for testing each Michigan newborn for 8 genetic and metabolic disorders; provides a lead screening program for Michigan children; and provides analysis for chemicals such as pesticides and herbicides in both human and animal tissue.

The **Women, Infants and Children's Division** is responsible for the administration of a special supplemental nutrition program. The program provides nutritional food, nutrition education, breastfeeding education, and support and referrals to health care and other services for women, infants and children with incomes at or below 185% of poverty and who have a nutritional or growth risk. Services are delivered through local public health departments and community agencies.

The Division of HIV/AIDS-STD is responsible for planning, directing, and coordinating prevention, control, and intervention for HIV/AIDS among infected and affected populations in Michigan. This program also aims to control syphilis, gonorrhea, and other sexually transmitted diseases. Primary treatment drugs and laboratory support are supplied by MDCH.

The Office of Public Health Preparedness is responsible for protecting the health of Michigan citizens against chemical, biological, and radiological threats. The office works closely with local, state, and federal authorities to develop a regional plan for dealing with bioterrorist attacks and other public health emergencies.

The Bureau of Integrated Health Services is responsible for the administration and management of the Michigan Medicaid Program and other health benefit programs. These programs are designed to provide medical assistance to persons with low incomes and high health needs. The bureau purchases health benefits from private qualified health plans across the state and administers a fee-for-service program that reimburses hospitals, nursing homes, physicians, and other providers for health benefits provided to Medicaid beneficiaries.

The Division of Chronic Disease and Injury Control promotes healthy lifestyle factors in individuals, vulnerable populations, and communities to improve the length and quality of life for Michigan residents; and translates behavioral science technology into actions to promote healthy behaviors, and prevent diseases and injuries.

The **Budget and Finance Administration** is responsible for the following functions:

- Revenue enhancement
- Accounting
- · Contracts and grants
- Budgeting

The **Office of Services to the Aging's** mission is to promote and enhance the dignity and independence of older persons. The office is state government's focal point for issues important to our state's 2 million older men and women and, as such, it allocates and monitors state and federal funds for all Older American Act services: nutrition, community services, legal hot line, emergency prescriptions, and care management. The office provides technical assistance to the Medical Services Administration on the home and community based waiver, develops programs through Area Agencies on Aging, advocates on behalf of seniors with the legislature, governor, state departments, federal government, is responsible for state planning of aging services, and develops the state formula for distribution of state and federal funds.

The **Michigan Commission on Services to the Aging** was created by Act 146 of 1975, and redefined by Act 180 of 1981. The commission advises the Office of Services to the Aging, the governor, and the legislature on matters relating to policies and programs for older and aging persons in Michigan; promotes senior citizen interests within state government and communities; and administers the federal Older Americans Act programs and state-funded programs.

The 15 commission members are appointed by the governor, with the advice and consent of the senate, to serve 3-year terms. A majority of the members are 60 years of age or older, and no more than 8 members are of the same political party.

V. GAIL SIMPSON	. Feb. 28, 2003
DAVID SPREY	. Feb. 28, 2003
Peter L. Trezise	. Feb. 28, 2005

The **Community Health Specialty Services Panel** was established in Act 409 of 2000. The council reviews and makes determinations regarding applications or participation submitted by community mental health services programs or other managing entities.

The panel's members are appointed by the governor for 4-year terms. The members of the panel represent primarily consumers or family members, advocacy organizations, and local government. In addition, the director of the Department of Community Health and the director of the Department of Management and Budget (or their designees) serve on the panel.

Bureau of Health Systems

The mission of the **Bureau of Health Systems** is to protect and improve the health status of Michigan's population through the development, maintenance, and assurance of safe, effective, efficient, and accessible health care services delivered through health care facilities, organizations, and systems; to promote the development of appropriate regulatory policies to achieve a safe, efficient, and effective health care delivery system. The director of the Bureau of Health Systems is Walter S. Wheeler, III, G. Mennen Williams Building, 5th Floor, P.O. Box 30664, Lansing 48909.

Bureau of Health Services

The **Bureau of Health Services** is comprised of the Administrative Division, Complaint and Allegation Division, Licensing Division, and the Regulatory Division.

The Administrative Division provides executive direction to the office and houses the Health Professional Recovery Committee.

The **Health Professional Recovery Committee** was created by Act 80 of 1993 and became effective April 1, 1994. The committee is composed of 2 public members, appointed by the department director, both of whom have specialized training or experience, or both, in the treatment of individuals with addictive behavior and 1 professional member appointed by each board and the physician's assistants task force, all of whom have education, training, and clinical expertise in the treatment of individuals with addictive behavior or mental illness, or both. The term of office for all members is 2 years. The department director, or his or her designee, serves as an ex officio member without a vote.

The responsibilities of the committee include establishing the general components of a health recovery program and a mechanism for monitoring health professionals who may be impaired; developing and implementing criteria for the identification, assessment, and treatment of health professionals who may be impaired; developing and implementing mechanisms for the evaluation of continuing care or aftercare plans for health professionals who may be impaired; developing a mechanism and criteria for the referral of a health professional who may be impaired to a professional association, when appropriate, for the purpose of providing assistance to the health professional; and to provide each board with statistical information, on an annual basis, on the level of participation in the program of each health profession. The report may also include recommendations for changes in the program.

The Michigan Board of Dentistry was created by Act 122 of 1919. Pursuant to Act 368 of 1978, the board is responsible for the licensure and examination of persons prior to their entry into the practice of dentistry, dental hygiene, or dental assisting in Michigan, and for the certification of dental specialists.

DENTAL SPECIALTY TASK FORCE

Executive Order No. 1996-2, effective May 15, 1996, transferred powers, duties, functions, and responsibilities of the Dental Specialty Task Force created under part 166 of the Public Health Code, being § 333.16624 of the Michigan Compiled Laws, from the Department of Commerce to the Director of the Department of Consumer and Industry Services by a Type III transfer as defined by Section 3 of Act 380 of 1965, as amended, being section 16.103 of the Michigan Compiled Laws.

MICHIGAN BOARD OF MARRIAGE AND FAMILY THERAPY

Marriage and Family Therapists	Term expires
LORI EDELSON, West Bloomfield	June 30, 2007
